Dear Presenter,

Recommendations usually begin with flowery comments about artistry and stunning technique. Let me start out by telling you about the Brasil Duo's concert in Fort Worth. Not only was it the best duo playing I've heard, but they so completely won over our audience they received a standing ovation in the middle of the second half of their concert. Not only that, the S.O. was for a slow piece. It was just that beautiful.

The artistic rapport between Douglas and João is extraordinary. Their phrasing isn't just worked out, it is "felt." These young men really love playing together and it shows. As individual guitarists they play at the highest level both musically and technically, but the magic that happens when they perform together is nothing short of breathtaking.

As an artist I was very moved by the Duo's performance. As a presenter I appreciated their professionalism. They scored a solid 10 in all areas. Book these guys as soon as you can and feel free to call or email to thank me for the best advice you've gotten in a long time.
